

The Moody Bible Institute of Chicago Alcohol and Drug Free Schools and Communities Act

Policy Statement and Notification (last revised January 29, 2026)

This Policy Statement and Notification is being provided to all students and employees of The Moody Bible Institute of Chicago (“MBI”) in compliance with the Drug Free Schools and Communities Act Amendments of 1989.

Standards of Conduct for Students and Employees

It is the policy of MBI to prohibit the manufacture, possession, use, consumption, distribution and/or sale of all illicit drugs or alcohol by student and employees, (1) on property owned, operated, or controlled by MBI, or (2) in association with any school-related activities or employment duties, whether those activities occur on or off campus. This includes student conduct both on and off campus when enrolled in Moody undergraduate or Moody Theological Seminary coursework, when living in MBI residence halls, when in any public or private area of campus, or when in vehicles owned or operated by MBI.

All members of the MBI community, including students and employees, are responsible for being familiar and complying with MBI policies and the requirements of federal, state, and local laws concerning the manufacture, dispensation, possession, use, consumption, distribution and/or sale of controlled substances and alcohol. MBI expects each member of the MBI community to be responsible for his or her own conduct and the consequences of that conduct.

Description of Applicable Sanctions

Local, state and federal laws prohibit the unlawful possession, use, or distribution of illicit drugs and alcohol. The courts may impose strict legal sanctions upon an individual who is found to have violated these legal prohibitions. When applicable, available legal sanctions include, but are not limited to, the imposition of fines, imprisonment, forfeiture of property, non-voluntary community service, probation, required medical or psychiatric treatment, rehabilitation, treatment as approved by the applicable agency in the States of Illinois, Michigan, and Washington, and restitution. An individual’s status as a student or employee in no way prevents a court from imposing any of these sanctions.

Please see **Appendices A, B, C, and D** attached hereto and incorporated by this reference for a description of applicable legal sanctions under Federal, State (Illinois, Michigan, and Washington), and Local (Chicago, Plymouth, and Spokane) law, for the unlawful possession or distribution of illicit drugs and alcohol.

Anyone violating these MBI policies or applicable laws may also be subject to sanctions by MBI, in addition to any legal sanctions by applicable governmental authorities. MBI may impose disciplinary sanctions upon any student or employee who is found to be in violation of laws or MBI policies relating to the unlawful possession, use, or distribution of illicit drugs and alcohol.

For employees, based upon the seriousness of the offense, such sanctions may include, without limitation, reprimand, probation, suspension, termination of employment, and possibly referral for prosecution.

For students, the minimum sanction for a student’s first offense of alcohol use or illicit drug possession, use, or distribution ranges from a formal reprimand to dismissal based on the seriousness of the offense. The normal sanction for a second offense of alcohol use or a drug offense ranges from warning status to expulsion based on the seriousness of the offense. Each disciplinary measure serves as an evaluation period of the student’s behavior

and also a warning that further rule violations will result in more stringent disciplinary measures. Parents may be notified regarding instances of alcohol or illicit drug misuse or abuse.

In addition to the above sanctions, students may be subject to termination of student employment, and they may also be referred for prosecution.

Potential Health Risks Associated with Alcohol and Other Drug Use

The illegal use of controlled substances and abuse of alcohol may cause serious health problems, impair performance, and endanger the safety and well-being of students, faculty, staff, and members of the general public. Because it is readily available and its use is not necessarily illegal, the drug which tends to have the greatest potential for harm to the most people is alcohol. Negative health and social consequences which may occur as a result of the use of alcohol include accidents, assaults (physical or verbal), and other problems related to health and productivity. The use of alcohol by pregnant women, alcoholics, and people who are ill or on medication is especially dangerous. In all instances, MBI observes relevant State of Illinois, Michigan, and Washington laws and regulations pertaining to alcohol. Please see Appendix E for more information on related health risks associated with alcohol and drug use.

Substance Abuse Resources

Students

MBI encourages any students who may have a problem with the use of drugs or alcohol to seek professional advice and treatment. Some of these services may be without charge, and the cost of others may require payment by the student. MBI will assist students who seek information or are concerned about drug or alcohol use by connecting them with appropriate services. While initial assistance can be sought through MBI Personnel, any treatment would need to be sought directly by the student from local treatment providers who specialize in the field of addictions. Please see Appendix F, G, and H for a suggested list of currently available third-party treatment services. Parents may be involved in discussions where a student seeks treatment for rehabilitation purposes.

Employees

MBI encourages any employees who may have a problem with the use of drugs or alcohol to seek professional advice and treatment. Some of these services may be without charge, and the cost of others may require payment by the employee. MBI will assist employees who seek information or are concerned about a drug or alcohol problem by connecting them with appropriate services. While initial assistance can be sought through MBI Personnel, any treatment would need to be sought directly by the employee from local treatment providers who specialize in the field of addictions. Please see Appendices F, G, and H attached hereto and incorporated by this reference for a suggested list of currently available third-party treatment services.

FEDERAL LEGAL PENALTIES

Federal laws make the illegal possession and sale of drugs serious crimes. Convictions for violations of these laws can lead to imprisonment, fines, community service and a permanent criminal record. In addition to these penalties, convictions can also result in, among other penalties, property used in connection with illegal drugs being confiscated and federal student loans, grants and contracts being denied. The following sections describe certain relevant legal penalties under federal laws with respect to illegal drug possession and sale.

FEDERAL DRUG PENALTIES

Federal law penalizes the manufacture, distribution, possession with intent to manufacture or distribute and simple possession of illegal drugs. Federal law penalties for possessing illegal drugs alone are harsh, as described below:

- First conviction: up to one-year imprisonment, a fine of at least \$1,000 or both; after one prior drug conviction: 15 days to two years imprisonment and a fine of at least \$2,500; and after two or more prior drug convictions: 90 days to three years imprisonment and a fine of at least \$5,000 (21 U.S.C. §844(a)).
- Forfeiture of personal and real property used to possess or to facilitate possession of the illegal drugs if that offense is punishable by more than one-year imprisonment, as well as forfeiture of vehicles used to transport or conceal an illegal drug (21 U.S.C. §§853(a) & 881(a)).
- Denial of federal benefits, such as student loans, grants, contracts, and professional and commercial licenses, up to one year for the first offense and up to five years for the second and any subsequent offense (for trafficking, it is five years for the first offense, 10 years for the second offense and permanently for the third offense) (21 U.S.C. §862).

Under federal law, a federal or state conviction for illegal drug possession or sale that occurs while a student is enrolled and receiving federal aid can disqualify a student from receiving any federal student aid funds, such as loans and grants (21 U.S.C. §862). The table below illustrates the period of ineligibility for federal student aid funds, depending on whether the conviction was for possession or sale and whether the student had previous offenses:

No. Offenses	Possession of Illegal Drugs	Sale of Illegal Drugs
1st Offense	Up to 1 year from date of conviction	5 years from date of conviction
2nd Offense	Up to 5 years from date of conviction	10 years from date of conviction
3+ Offenses		Indefinite Period

Federal law penalties for trafficking illegal drugs are considerably more severe than those outlined above.

The following tables from the U.S. Department of Justice and Drug Enforcement Administration outline federal trafficking penalties for illegal drugs.

ILLINOIS DRUG PENALTIES

Illinois and City of Chicago laws make the illegal possession and sale of drugs and alcohol serious crimes. Convictions for violations of these laws can lead to imprisonment, fines, community service and a permanent criminal record. In addition to these penalties, convictions can also result in, among other penalties, property used in connection with illegal drugs being confiscated and federal student loans, grants and contracts being denied. The following sections describe certain relevant legal penalties under Illinois laws with respect to illegal drug possession and sale, Illinois laws with respect to alcohol and City of Chicago laws regarding alcohol and illegal drug possession and sale.

Effective January 1, 2020, the Illinois Cannabis Regulation and Tax Act, Public Act 101-0027 (the “IL Cannabis Act”), permits limited sale, use, and possession of cannabis for limited recreational purposes as defined in the Act. However, all use, sale, and/or possession of cannabis remains illegal under federal law and policies concerning cannabis at Moody Bible Institute remain unchanged. The use, production, or distribution of cannabis on MBI property or during MBI-sponsored activities is strictly prohibited.

Illinois laws set forth a variety of penalties for illegal drug possession and sale, as set forth below.

ILLINOIS ALCOHOL AND ALCOHOL-RELATED PENALTIES

Illinois law prohibits the consumption and possession of alcohol by persons under the age of 21 and the supplying of alcohol to any person under the age of 21. Additionally, Illinois law prohibits the sale of alcoholic beverages except by those licensed to sell such beverages. Illinois law and City of Chicago ordinances also prohibit public intoxication to a degree that it endangers people or property or annoys people in the vicinity, the operation of a vehicle under the influence of alcohol or other intoxicants, and the consumption of alcohol on a public way. Violation of these laws or other laws relating to drugs and alcohol may result in probation, fines, imprisonment, and a permanent criminal record. The following sections set forth in some detail state statutes regarding alcohol use by any person under the age of 21.

State Alcohol Sanctions: Persons under 21 who present or offer false evidence for purposes of obtaining alcohol shall be fined between \$500 and \$2,500, must perform 25 hours of community service, and may be jailed for up to one year. Persons under 21 in possession of alcohol on or in any street or public place may be imprisoned for up to one year and fined \$2,500 (235 ILCS §5/6-16).
