Moody Bible Institute - Missionary Aviation Technology Student Cost Estimate Worksheet - Maintenance 2016-2017

(1) These fees include costs towards a required iPad and tool set. The iPad is included in the "Books" column. A 50% down-payment is required towards these items, due before the previous June 30, or as listed on your iPad & Tool Agreement (which you will receive in the spring semester). If on the payment plan, this down-payment may count towards your first payment.

(2) Optional 4th year maintenance specialist coursework includes:

- MF4001 Primary Ground

- MF4002 Primary Flight

- MF4003 Flight Orientation

- MF4034 Support Operations I

This coursework provides initial flight experience exposure to ensure a well-rounded maintenance specialist. See Flight Major cost estimate for tuition & fee details. This coursework would also increase the Student Benefit Fee to \$490 (\$35/credit hour, max of 14 credits charged)

(3) A slot for the internship is generally provided for 5th year Maintenance Specialist students between Oct - Dec of their 5th year. Internship costs will vary

depending on location, flight opportunities, and single or family participation. Budget \$5000 for the internship costs (as shown in the "Books & Materials" charge). The internship is shown in Semester 9 but may be taken any time after completion of the 2nd year, when time allows.

⁽⁴⁾ This includes fees charged by STC for their PT6A Turbine Familiarization & Turbine Shop coursework. These fees are normally a 50% discount from the advertised rate. The turbine training costs are controlled through Spokane Turbine Center and change in January of each year. The prices listed are current, but are likely to change by the time the course is offered.

(5) Payment plan enrollment requires a \$50 enrollment fee **each semester** which is accounted for in the cost shown. A late enrollment fee of \$10 (along with the \$50 enrollment fee) will be assessed if you have not enrolled in the payment plan or paid off your student account prior to the payment plan enrollment deadline. If any payment is made after the deadline shown, a \$25 late fee will be incurred. If you enroll in the fall semester, you will be **automatically enrolled** in the payment plan for the spring semester and the \$50 enrollment fee will be automatically charged to your student account.

⁽⁶⁾ FAA Testing fees are **not** paid to Moody Bible Institute or included in the total cost estimate, but are shown here for your planning purposes. Written test fees are paid to the testing center where they are taken; oral & practical test fees are paid to the examiner. Amounts shown are estimates and will change based on testing center and examiner.

The values indicated in this worksheet are based on the costs for the indicated academic year and reflect the average costs for course completion. Costs for future academic years will vary and students may be required to complete additional course requirements in order to meet minimum standards for course completion which will increase the student program costs.

Moody reserves the right to adjust costs as necessary to reflect changes in material costs in the event of significant price changes in supplies, though we are committed to keeping the costs as low as possible for our students.

Note: Fees above do not include required medical insurance, in which you will be automatically enrolled unless a waiver is filled out each semester. 2016/2017 individual rates: Fall - \$827, Spring - \$1237
